Skills

- HTML
- CSS(SCSS, Bootstrap, Tailwind CSS)
- JavaScript
- React
- Typescript
- Redux(redux-toolkit)
- Git/Github
- Rest/GraphQL

Languages

- Uzbek - native
- English - upper-intermediate
- Turkish - upper-intermediate
- Russian - intermediate

Interests

- Reading books, medium articles and MDN docs
- Game development with Javascript
- Biking/swimming/football

Career objective

Frontend developer with proven experience in developing online platform for learning programming remotely from the ground up, food-delivery PWA and customizable components.
I like converting aesthetic design into interactive pixel-perfect UIs. Although I mainly develop with React, I love playing around with vanilla Javascript. I am also interested in projects built or in which mainly dealt with vanilla Javascript. Eager to learn and work on larger scale projects.

Professional Experience

Abutech software company

📅 *February 2022 - August 2022*

Online learning platform - link

Key responsibilities:
- Created highly customizable components that were used across different apps with styled-components
- Worked with a senior mentor to get better grasp of app architecture in general
- Helped fellow developers debug and understand codebase
- Reviewed PRs of new interns and help them onboard in shortest time possible
- Built a panel that helps a student manage his courses and buy new ones
- Integrated with designers to improve UX
- Worked with back-end developers to integrate payment methods to purchase new courses

Abutech software company

📅 *August 2021 - February 2022*

Food delivery PWA - *alternative*

Key responsibilities:
- Collaborated with UI designers and fellow front-end developers to create PWA which behaves like a mobile app on mobile devices and adapts to larger screens as well
- Created reusable components with CSS modules
- Worked with back-end developers to integrate the app with the backend
- Refactored 70-80% of an admin panel to improve maintainability and scalability
- Helped fellow developers debug and improve certain animations
- Worked with and lead new interns to help them integrate with an ongoing project
